1. Inmate's Medical Status:

Inmate Pinson is a Medical Care Level 2 and Care 2-Mental Health inmate assigned regular duty status with no medical restrictions. Pinson is cleared for work in Food Service.

2. Institution Adjustment:

3. Rationale for Referral: (For Mariel Cuban Detainees, include availability of community resources and status of INS review process in this section.)

A threat assessment dated January 23, 2020, concluded inmate Pinson, Reg. No. 16267-064, cannot be housed in general population here at USP Tucson, AZ. On January 17, 2020, Inmate Pinson was assaulted by another inmate while housed at USP Tucson. This is Pinson's second assault within two months. According to the threat assessment, the assault stemmed from a prior disagreement between inmate Pinson and another inmate. The investigation further determined that a viable threat exists toward inmate Pinson by unidentified inmates associated with the White Non-Sex Offenders. During several interviews, inmates stated Pinson would be assaulted again if he returned to general population. Furthermore, Pinson stated he has animosity toward the inmate that placed a "hit" on him. It was also noted during the investigation that Pinson wrote a letter to the U.S. Court indicating "there is an imminent danger; no different than the last two attacks; resulting in serious injury".

During his Tenure at USP Tucson he has presented himself as a serious management problem. Albeit having completed a few basic education classes, he has not followed the instructions of his unit team. He attempted to participate in the Challenge Program; however, he was not able to make any significant progress in the Challenge program due to his egregious behavior resulting in multiple investigations and repetitive SHU placements.

Since his arrival at USP Tucson he has been subject to 12 investigative reports/threat assessment for the following situations: six PREA allegations, of which five were unsubstantiated and one was unfounded; one investigative report for fighting; two where he was assaulted by other inmates; two where he threatened staff with bodily harm; and one protective custody investigation where Pinson was the aggressor resulting in another inmates protective custody request. Based on his behavior, he has been recommended for a transfer 5x; however, his transferred have been denied.

Based on the threat assessments and Pinson's letter to the court indicating a viable threat exists toward him, the Unit Team recommends he is transferred to another facility in order to continue with his programming needs. Inmate Pinson was enrolled in the Challenge Program and was interested in completing it; however, due to both incidents, he has not been able to program appropriately. Based on his ambition for self-improvement, Unit Team recommends Pinson receive a Program Participation transfer to USP Atlanta in order to be given an opportunity to complete the Challenge Program; or any other appropriate High security facility to commensurate with his security and programming needs.
